Date review returned			

Version History

Version	Date	Description of Changes	Updated By	Review Status
V1.0	27 October 2026	Initial content inventory prepared for client review		Pending Client Review

Change Log

Record every content change made after this version, one row per change (add rows with Tab in the last cell). **Versioning:** V1.0 initial content inventory · V1.1 minor edits (typing errors, small wording changes) · V1.2 changes requested by the client during review · V2.0 major revision (new pages, restructured sections or rewritten copy).

Version	Date	Page	Section	Original / Previous Content	Revised Content	Reason	Updated By	Client Approval Status

How to Review

Every piece of text on the website is listed page by page, in the order it appears on screen, with image descriptions (read aloud by screen readers) and where each link goes. Text shared by many pages (header, menu, footer, closing call to action, client logos, experience centres) is listed once under Global Elements.

1. Open the file in Google Docs, choose **File › Save as Google Docs**, then switch the mode at the top right from **Editing** to **Suggesting** so every change is recorded (in Word: **Review › Track Changes**).
2. Leave the shaded **Current content** column as it is: it records what was reviewed.
3. Type new wording, questions or instructions in the **Proposed change / comment** column beside the item; it grows as you type.
4. Tick one box on each section's title row: **Approved**, **Changes Required** or **Pending** (every section starts as Pending). If the boxes cannot be clicked, as in Google Docs, delete the statuses that do not apply.
5. List all requests in the **Consolidated Client Feedback Summary**, complete the **Final Sign-off**, and share the document back (or return the file with your initials and the date in its name).

Notes in grey italics say when text appears (for example, only after a button is pressed). **Needs your input** marks placeholders waiting for your content. Agreed wording is applied to the website and recorded in the Change Log as a new version. If Word asks to update fields when opening, choose Yes (this refreshes the contents and page numbers).

Hierarchical Sitemap

9 pages, all published at https://showry001.github.io/Edomotics/

- Home / · 14 sections
  - Home Automation /automation/ · 8 sections
  - Home Theatre /home-theatre/ · 6 sections
  - Projects /projects/ · 3 sections
    - Akhil & Sanjana Residence /projects/akhil-sanjana-residence/ · 5 sections
    - Dr Akhil & Sunitha Residence /projects/dr-akhil-sunitha-residence/ · 6 sections
    - Seshu & Rajalakshmi Residence /projects/seshu-rajalakshmi-residence/ · 5 sections
  - About /about/ · 9 sections
  - Contact /contact/ · 2 sections
- Shared by the pages: G1 Header and menu, G2 Footer, G3 Call to action band, G4 Commercial clients, G5 Experience centres

NOT INCLUDED

- No legal pages, custom “page not found” page or separate thank-you page exist; enquiry messages appear on the Contact page and are listed there.
- Ravi Prasad Residence is in the website’s project list but switched off (not visible), so it is not reviewed.
- Other websites that pages link to (support portal, social media, press, maps) are not part of this review.

NEEDS YOUR INPUT

- **Akhil & Sanjana Residence:** Hero (a one-line summary of the project); Project details (city, what was installed, completion year, credits, photographer credit)
- **Dr Akhil & Sunitha Residence:** Hero (a one-line summary of the project); Project details (city, what was installed, completion year, credits, photographer credit); Related expertise (what was designed and installed here, and how it is used)
- **Seshu & Rajalakshmi Residence:** Hero (a one-line summary of the project); Project details (city, what was installed, completion year, credits, photographer credit)
- **About:** Hero (About hero portraits are temporary stock photographs with placeholder names and roles.)
- **Contact:** the enquiry form is not yet connected to an inbox, so visitors see the “not connected” message. Needs verification: where should enquiries be delivered?

Label	Home automation	
Headline	Light, climate, curtains, music and security. As one.	
Body text	Designed as one system and run from a keypad, a phone or the time of day, so every part of the home answers to a single, quiet interface.	
Link / button	Explore home automation → Home Automation page	
Label	Drag, swipe or use the arrows	
Cards (scroll sideways)		
Card 1	**Lighting** — Scenes, dimming and schedules for every room, from a bright afternoon to a low evening glow. **Image:** *A library of floor-to-ceiling shelves, lit from within.*	
Card 2	**Climate** — Comfort that follows the time of day and the rooms in use. **Image:** *A bedroom with a sculpted plaster wall, softly lit from a ceiling cove.*	
Card 3	**Curtains & shades** — Motorised drapes and blinds that open and close with the light outside. **Image:** *A bedroom with floor-to-ceiling glass and long curtains drawn back to a lake view.*	
Card 4	**Music** — Sound in the rooms you choose, started from the same keypad as the lights. **Image:** *A listening room: floor-standing speakers either side of an AV console and turntable.*	
Card 5	**Security** — The house arms itself with a single press, as you leave or as you turn in for the night. **Image:** *A contemporary villa at dusk, its terraces and windows glowing.*	
Card 6	**Access & intercom** — See who is at the door and let them in from inside the house. **Image:** *The entrance to a house: broad stone steps under a timber-lined canopy.*	
3. Edomotics in numbers Statement (figures)	☐ Approved ☐ Changes Required ☒ Pending	
Statement	700+ projects across five cities.	
Body text	Built by a team of 60+, over fifteen years of practice.	
4. One room, one day Interactive scene control	☐ Approved ☐ Changes Required ☒ Pending	
Label	One room, one day	
Headline	One room, one press.	
Lead text	Choose a scene. The same living room answers.	
Scene captions (change with the selected button) *The Relax caption shows first; the Night caption replaces it when a visitor presses Night.*		
Caption 1	**Relax** — Daylight does the work. Fixtures hold back and the curtains stay open to the view.	
Caption 2	**Night** — One press by the door. Curtains close, the house arms itself and settles to a glow.	
Panel label	Living room	
Scene indicator	Relax *Changes between the two button names.*	
Button	Relax	
Button	Night	
Image 1	A long living room in daylight: tan sofas, a hexagonal ring pendant and a polished stone floor.	
Image 2	The same living room at night, lit only by the pendant rings and a low glow.	
5. Principles Principles	☐ Approved ☐ Changes Required ☒ Pending	
Label	Principles	
Headline	What we hold to.	
Body text	Started by people who wanted integrated automation in their own homes and could not find it done credibly in India. Four ideas have held since.	

Element	Current content (as on the website)	Proposed change / comment
Principles		
Principle 01	**Technical depth** — Continuous innovation, backed by our own investment in technical research, so the systems we design are ones we understand completely.	
Principle 02	**Service, first** — Easy to install, easy to use and easy to do business with. If any one of the three fails, the job isn't finished.	
Principle 03	**Holistic, not piecemeal** — Not a point solution bolted on, but a fundamental change to the comfort, convenience, security and safety of the whole home.	
Principle 04	**Credible partners** — Alliances with world-class product and technology providers, so what goes into the walls is something we would live with ourselves.	
6. Home theatre (full-screen opening) Full-screen image with headline	☐ Approved ☐ Changes Required ☒ Pending	
Label	Home theatre	
Headline	The cinema at home.	
Image 1	A private cinema: two tiers of grey leather recliners inside a fabric-lined room, outlined by a warm perimeter light cove.

Page headline	The people behind the experience.	
Supporting text	60+	
Body text	More than sixty people in Hyderabad and Bengaluru, bringing together automation, AV, design and project execution to turn ideas into thoughtfully integrated spaces across five cities.	
Link / button	Scroll → This page, Our story section	

Element	Current content (as on the website)	Proposed change / comment
Needs your input: About hero portraits are temporary stock photographs with placeholder names and roles.		
2. Our story Story	☐ Approved ☐ Changes Required ☒ Pending	
Label	Our story	
Headline	Edomotics was started by people who wanted integrated automation in their own homes and could not find high-quality, credible brands in the Indian market. So they built the practice instead.	
Body text	The aim has stayed the same since 2011: to be innovative, passionate and nimble, to delight the people we work for, and to deliver a better way of living at home.	
Body text	Today Edomotics designs integrated automation and audio-video systems for residential and commercial spaces, with a team of more than sixty based in Hyderabad and Bengaluru, and projects across Hyderabad, Bengaluru, Chennai, Vijayawada and Visakhapatnam.	
3. In numbers Statistics	☐ Approved ☐ Changes Required ☒ Pending	
Label	In numbers	
Headline	Fifteen years, five cities.	
Statistics *Figures count up from zero when they come into view.*		
Figure 1	**700+** — Projects & happy clients	
Figure 2	**60+** — Team members	
Figure 3	**5** — Cities	
Figure 4	**15+** — Years of experience	
4. Principles Principles	☐ Approved ☐ Changes Required ☒ Pending	
Label	Principles	
Headline	What we hold to.	
Body text	Four ideas have shaped every project since the first.	
Principles		
Principle 01	**Technical depth** — Continuous innovation, backed by our own investment in technical research, so the systems we design are ones we understand completely.	
Principle 02	**Service, first** — Easy to install, easy to use and easy to do business with. If any one of the three fails, the job isn't finished.	
Principle 03	**Holistic, not piecemeal** — Not a point solution bolted on, but a fundamental change to the comfort, convenience, security and safety of the whole home.	
Principle 04	**Credible partners** — Alliances with world-class product and technology providers, so what goes into the walls is something we would live with ourselves.	
5. Leadership Leadership	☐ Approved ☐ Changes Required ☒ Pending	
Label	Leadership	
Headline	Founders and leadership.	
Body text	Edomotics is led by its co-founders, with a managing partner heading the Bangalore practice.	
Leadership cards
